

For Dogs and Cats.

Ocunovis[™] BioHAnce[™] Gel Eye Drops

is formulated to provide enhanced hydration, lubrication and comfort for dogs and cats with dry, irritated eyes. BioHAnce is a unique, crosslinked hyaluronic acid (HA) that has been specifically modified for the ocular surface environment in dogs and cats. It creates a cellular matrix of modified HA that provides a sheer, aqueous barrier on the eye without blurring. This thin, long-lasting coating mechanically protects and hydrates the ocular surface.

Indications

For dry, irritated eyes and other conditions where eye lubrication and hydration may be of benefit in dogs and cats.

Effectiveness

The efficacy of this product is supported with research conducted by a major university in the United States. The patented BioHAnce modified hyaluronic acid crosslinking technology has been shown to enhance hydration and lubrication of the ocular surface and provide superior duration.

Ingredients

All ingredients are naturally occurring in the body and do not cause pain or stinging when applied.

- Water
- BioHAnce Hyaluronic Acid (0.40%)
- BioSalts
 - Sodium Chloride
 - Disodium Phosphate
 - Potassium Chloride
 - Potassium Phosphate

Contains no preservatives or excipients that may irritate the eyes. Free of antibiotics or steroids.

Warning: For animal use only.

Adverse Reactions

For product support or to report an adverse reaction call 833-224-2015.

Administration

1. Carefully remove cap from bottle.
2. Place 1 to 2 drops directly into the eye. The natural movement of the eyelid will distribute the drops over the eye surface.
3. Ocunovis BioHAnce can be applied as little as 2 times daily or as eye lubrication is needed or per veterinarian recommendation.
4. To avoid contamination, do not touch the tip of the container to any surface.
5. Replace cap securely after using.

Storage

Product should be stored at room temperature, not above 85°F (29°C). May be stored in the refrigerator. If refrigerated, the product should be allowed to warm to room temperature prior to use. DO NOT FREEZE. Store upright.

How Supplied

5mL dropper bottle
